INTERVIEW QUESTIONS

These are just to make sure we answer any questions you might have and give you and your new kitten an opportunity to have a long joyful life together. Interviews are just basic questions such as:

Who will be the main person responsible for the kitten?

Do you have children? If so, do they know how to interact with the new addition?

Do you have other pets? If so, are they used to other animals and do you have an introduction plan ready?

Do you understand the basics of caring for a new pet?

Do you know what to NOT feed them?
